Allowable Subject Matter

Claims 1 – 13 are allowed. The following is a statement of reasons supporting the allowable subject matter.

The prior art of record fail to teach, in a parking assist method and apparatus, calculation of a change of vehicle direction based on both the outputs of a speed sensor and a steering angle sensor and determining whether to stop parking assist control based upon a comparison of the change of the vehicle direction with a change of a vehicle direction calculated on the basis of yaw rate of a yaw rate sensor – the comparison revealing that the difference between the two is greater than a predetermined value.
